

Full-Time MBA Program

The full-time MBA program can be completed in as little as one year. Full-time MBA students typically enroll in three to four courses per term. Students who have completed the nine prerequisite courses can complete the program in one calendar year. Students who still have prerequisites to fulfill can start the program before completing the MBA prerequisites. Depending on how many prerequisite courses the student needs to fulfill, the program can take up to two years (full-time) to complete.
