

Our nationally recognized accountancy program teaches more than just “the math.” Our program provides a strong foundation in accountancy knowledge, skills, and tools. It also focuses on providing students the ability to think broadly about accounting and its relationship to society, extending that knowledge to better anticipate and understand the implications of their decisions.

B.S. Accountancy

With PC’s bachelor of science in accountancy, students learn to adapt the knowledge and skills developed through the study of accounting to new situations encountered in a dynamic business environment. The curriculum includes case analyses, computer labs and assignments, team projects, oral presentations, internships, and research projects. All of the major topics on the CPA exam are covered, and many students take and pass the exam after graduation. We also offer many co-curricular and experiential activities to enhance the educational experience of our students.

Accountancy Minor or Elective

Students who take the eight required courses to minor in accountancy will augment other majors with knowledge and skills that are transferable to a wide variety of careers.

One-Year Accounting Cohort MBA

For those students who wish to continue their education beyond a bachelor’s degree, the School of Business offers an accounting-specific accelerated MBA Program. The one-year MBA Accounting Cohort Program is designed for students with a background in accounting to complete an MBA degree in 13-14 months full time. The program prepares students for the CPA exam and is focused on providing skills for accounting majors to be successful in future positions in management. Students in this program take courses together, and courses address the specific skills needed for accountants to be successful in the business community.

PLACES. PEOPLE. AND PROGRAMS

The **Providence College School of Business**, located in the Arthur F. and Patricia Ryan Center for Business Studies, is one of just 30% of U.S. business schools accredited by AACSB International. It's also listed by Poets and Quants as being among the top undergraduate business schools in the nation.

Nearly every PC Business graduate participates in **at least one internship at esteemed organizations** such as Deloitte, EY, KPMG, PwC, and other national and regional companies.

Our students participate in case competitions, including the PC's own **Michael Smith Regional Ethics Case Competition**. In recent years, our students have also taken top honors in the national Berg Cup Case Competition and the PwC Challenge Case Competition.

Accountancy faculty are experts in their field and have won numerous awards for their research and teaching. Their work appears in a variety of academic publications, including *The Accounting Review*, *Contemporary Accounting Research*, *Accounting Organizations and Society*, *Auditing: A Journal of Practice and Theory*, *Accounting and the Public Interest*, and *Issues in Accounting Education*, as well as practitioner journals, including *The CPA Journal*, *Strategic Finance*, *Tax Advisor*, and many others.
