

Our finance degree program covers the traditional areas of finance — corporate financial management, investment analysis, and financial institutions and markets. But it's also built on a firm liberal arts foundation and reinforced by a values-based philosophy. This allows our students to learn how to tackle complex financial challenges with high professional and ethical standards and a broad-based perspective — giving them a clear, competitive advantage with employers seeking talent that can excel in today's multifaceted business environment.

### B.S. Finance

The bachelor of science in finance exposes students to the traditional areas of study within the discipline of finance: corporate finance, investments, and financial institutions. But it's also built on a firm liberal arts foundation and reinforced by a values-based philosophy. This allows our students to learn how to tackle complex financial challenges with high professional and ethical standards and a broad-based perspective — giving them a clear, competitive advantage with employers seeking talent that can excel in today's multifaceted business environment.

### Finance Quant Track (FINq)

FINq provides the opportunity to complete the required finance courses with a greater focus on quantitative aspects of finance and an increased application of computer and statistical software and applications that includes Python, Excel, and other relevant tools. Finance majors are invited to apply to FINq in their first semester. Students with acceptable scores in AP calculus, AP statistics, and AP economics, and SAT (math) scores above 600 are strongly encouraged to apply for this track.

### Finance Minor

Students may also choose to complement another program of study with a minor in finance, with approval of the School of Business undergraduate programs office and completion of six required finance courses and one finance elective.

## PEOPLE AND PLACES

The Providence College School of Business is one of just 30% of U.S. business schools accredited by AACSB International. It's also listed by Poets and Quants as being among the top undergraduate business schools in the nation.

Finance courses are taught in the state-of-the-art, award-winning Arthur F. and Patricia Ryan Center for Business Studies, which includes a Bloomberg terminal lab as well as collaboration, conference, and breakout rooms, and a professional development suite.

Nearly every PC Business graduate participates in at least one internship at esteemed organizations such as Fidelity Investments, GPS Investment Advisors, IMG, Signet Investment Group, Textron, and others.

Students can apply to participate in the Student Managed Investment Fund (SMIF) course or join the Student Led Asset Management (SLAM) fund, both are opportunities where students analyze market sectors and manage real money.
